Bachelor of Arts
Major Criminology

SKILLS

Project Management

- For Mesh, I organized and facilitated Agile and Scrum meetings, which included sprint planning, daily scrums or stand-ups, sprint check-in, sprint review & retrospectives.
- At CPA, I handled managing client communication and expectations, organizing the product backlog and maintaining road maps.

Product Development

- I took ownership with Chkout by writing user stories based on feedback we gathered from interviewing clients and then implementing those stories in our product retrospectives.
- I used my multi-tasking skills to help facilitate fast-paced sprints to include user-centered design, rapid prototyping, and VR design while suggesting project improvements.

Software Development

- Worked with other developers on the Mesh application and created the [webpage](#) for the conference.
- For Chkout, I practice using Unity by manipulating assets and reiterating on the art pipeline. All in order to better communicate and support my developer.

TOOLS

Unity, Airtable (similar to Jira), Trello, Microsoft Office, VS Code, Slack & Adobe Creative Suite.
Versed in: Agile methodologies, HTML, CSS, JavaScript, WordPress and Drupal.

FUN FACTS

Made an interactive installation to tell the story of saving the coral reefs.
Obsessed with Lego for fast prototyping.
